## Waiting Room

VideoMeet audio/ video conferencing platform provides you numerous secure video conference features to ensure your meetings are protected and include only the desired participants. One of the most amazing security components of VideoMeet Meeting -Waiting Room feature.

The waiting room is a virtual staging area that prevents people from joining a meeting until the host is ready. Meeting host can customize the Waiting Room settings to gain control over which participants join a specific meeting and when.

As a meeting host, you can customize the message that appears in the Waiting Room, which lets waiting participants know they are in the right place. The host can even send a personalized message to those in the Waiting Room, either to individual users on desktop and mobile or to all Waiting Room attendees.

- The Waiting Rooms are beneficial to protect your meetings that have external participants, For Example:
- Medical professionals who host multiple appointments at the same time.
- Medical professionals who host multiple appointments at the same time.

## VideoMeet Webinar

VideoMeet Webinar allows you to host online events that combine HD audio/ video quality.

-  Host online events upto 100+ video panelists.
-  Shared Document.
-  Easy set up and scheduling.
-  Live Streaming.
-  Full featured Host controls.

## Sensitive Meeting Mode

VideoMeet's privacy and security settings help in reducing the possibilities of unknown or unwanted attendees joining a meeting. If you are scheduling a meeting where sensitive information will be discussed then the sensitive meeting mode can be a great option.

-  Enable waiting Room
-  Meeting code
-  Add/ Remove participants in private mode
